

REMARKS

Claims 1-5 and 9-14 have been canceled without prejudice for re-presentation in a continuing application. Additionally, claims 6-8 and 15 have been revised to be directed to methods of treating cancer comprising use of the components of claims 6-8 and 15 as previously presented. The revision to these claims was discussed with and approved by Examiner Natarajan during a telephonic conference on October 16, 2007 with Applicants' representative Kawai Lau (Reg. no. 44,461). The revisions to the claims are supported by the application as filed at least in paragraphs [0007], [0031], [0032], [0045] and [0046] as well as previous claim 15.

No new matter has been introduced, and entry of the revised claims is respectfully requested.

Claims 1-15 were restricted into Groups I-III.

In response to the Restriction Requirement, Applicants elect Group III, claims 6-8 and 15 without traverse.

The Examiner is encouraged to contact the undersigned to further the prosecution of the present invention.
